

PERSONAL INFORMATION

Rosanna Rizzi

WORK EXPERIENCE

- February 2001 – Present **Staff scientist (full time/permanent position)**
Institute of Crystallography (IC) - National Research Council (CNR)
Via G. Amendola 122/o, 70126 Bari, Italy
- Development and implementation in crystallographic software of new and efficient methodologies for qualitative phase analysis and structure solution process using X ray diffraction data from powder compounds.
- X-ray powder diffraction data collection with laboratory diffractometers or at Synchrotron light source .
- Powder data analysis for qualitative phase characterization and crystal structure solution.
- Co-author of the crystallographic software: 1) EXPO; 2) QualX; 3) OChemDb (Open Chemistry Database)
Business or sector Research
- January 2011 – Present **Head of X-ray powder diffraction laboratory**
Business or sector Research

EDUCATION AND TRAINING

- September 2005 **CNR short-term mobility project**
Project: The development of strategies on Direct-space technique to solve crystal structures from powder diffraction data
University of Geneva, Laboratory of Crystallography
Business or sector Research
- March - May 2004 **CNR short-term mobility project**
Project: Determining low-resolution crystal structures from powder diffraction data
ISIS Facility Rutherford Appleton Laboratory (Oxford). United Kingdom
Business or sector Research
- May 2003 **CNR short-term mobility project**
Project: Natural and synthetic Zeolites
University of Ferrara, Italy
Business or sector Research
- 1999-2002 **PhD in Earth Science**
Title of thesis: Development of crystallographic methodologies for powder structure analysis with particular emphasis for zeolite compounds
University of Bari, Italy
- 1995-1998 **Fellowship in Crystallography**
Fellowship in Crystallography at 'Istituto di Ricerca per lo Sviluppo di Metodologie Cristallografiche', IRMEC-CNR, Bari, Italy. Tutor: Professor C. Giacovazzo, University of Bari, Italy
- 1988-1994 **Bachelor in Physic**
Title of the Thesis: Processi di assorbimento a due fotoni nei semiconduttori a filo quantico di GaAs-Al_xGa_{1-x}As.

University of Bari

RESEARCH ACTIVITIES

- Main scientist developer for package EXPO [Altomare et al., Crystal Research and Technology (2015), 737-742]
- Main scientist developer for package QUALX [Altomare et al., J. Appl. Cryst. (2015), 48, 598-603]
- Main scientist developer for package OChemDB [Altomare et al., J. Appl. Cryst. (2018), 51, 1229-1236]
- Development of new and innovative algorithms to indexing a powder diffraction pattern
- Development of new and innovative algorithms for the Space Group determination
- Development of new and innovative algorithms to decompose the experimental powder X ray diffraction pattern into single integrated intensities
- Development of the phasing techniques above all Direct Methods to solve small and medium polycrystalline compounds
- Development of new and innovative algorithms for structure model optimization
- Development of new and innovative algorithms to solve polycrystalline materials in the direct space: Simulated Annealing and Big Bang-Big Crunch method
- Development of Machine Learning approaches to unit cel parameters determination

TEACHING AND LECTURES

2022

- Member of the Steering Committee of the fourth Joint Conference of the Italian Crystallographic Association (AIC) and the Italian Society of Synchrotron Light (SILS). (12-15 September, Trieste, Italy).
- Teaching at workshop: Hands-on Software. (28-29 June, Modena, Italy).

2021

- Oral communication at 1st Conference on Crystallography, structural chemistry and biosystem. Title of oral presentation: Solving polycrystalline structures: from data collection to the development of innovative crystallographic methods. (4-6 October, Catania, Italy).
- Teaching at 'International school of crystallography: Molecular crystal engineering'. Title of lessons: 1) Qualitative analysis by using X-ray diffraction: theory, database and software; 2) Polycrystalline materials: crystal structure solution in reciprocal and/or direct space?. (31 Maggio – 4 Giugno, Erice, Italy).
- Member of the scientific committee of the International Crystallography school. (31 August – 4 September, Parma, Italy).

2020

- Conference Committee member of the 2nd International Online Conference on Crystals. 10-20 November.
- Keynote al 2nd International Online Conference on Crystals. Titolo presentazione: Physico-chemical characterization of new rare earths doped calcium phosphates'. 10-20 November 2020.
- Member of the 'Commissione Strumentazione e Calcolo' of Associazione Italiana di Cristallografia (AIC) (2018-2020)

2019

- Guest Editor of the Special issue "Crystal Structure Characterization by Powder Diffraction". Crystals. ISSN 2073-4352
- Member of the Editorial Board of the Crystals International Journal, 'Crystalline Materials' section.

- Organization of EXPO&more International Workshop. Politecnico of Bari, Italy (29 September-3 October).
- Organization of 'Microscopi Giganti: introduzione alle applicazioni delle grandi sorgenti' national workshop. University of Milan, Italy (13 May).
- Oral communication at department of chemical sciences and materials technologies (CNR) conference. Title: Innovative Methodologies and challenging applications of Software for the Characterization of Polycrystalline Compounds. Brixen, Italy, (28-30 September).
- Oral communication at EXPO&more International Workshop. Title of oral presentations: 1) Full pattern decomposition; 2) Reciprocal space methods solution. Politecnico of Bari, Bari-Italy (30 September-03 October).
- Tutor of the computer session at International Workshop: EXPO&more. 3 Politecnico of Bari, Bari-Italy (30 Septemttembre-03 October).

2018

- Organization of AIC International School: Powder diffraction: theory, software and applications. Bari, Italy (29 August -2 September).
- Organization of 3rd joint AIC-SILS Conference. Rome, Italy (25-28 June).
- Organization of Analisi quantitativa di fasi cristalline: metodi tradizionali e chemiometria a confronto national workshop. University of Bologna, Italy (6 February).
- Oral Communication at International Congress EPDIC16. Title of oral presentation: New algorithms for structure solution of polycrystalline materials in EXPO software. Edinburgh, Scotland, (1-4 July).
- Chair of the MS4 'Methods: Methodological and experimental developments in crystallography and synchrotron techniques' at the 3rd joint AIC-SILS Conference. Rome, Italy, (25-28 June).

2017

- Organization of 'L'esperimento flessibile: studi di diffrazione in condizioni non ambientali' national Workshop. University of Bari, Italy (22 February).

2016

- Organization of 'Analisi di fase qualitativa e quantitativa per applicazioni industriali e ambientali' national Workshop. University of Milano, Italy (16 February).
- Organization of 15th European Powder Diffraction Conference. Bari, Italy (12-15 June).
- Invited lecture at 3rd European Crystallography School (ECS3). Bol, Croatia, (25 September - 02 October).

2015

- Chair of MS39 'Recent advances in diffraction instruments, detectors and data processing' to the 29th European Crystallographic Meeting (ECM29). Rovigno, Croatia (23-28 August).

2014 and older: selected

- Organization of the International EXPO/SIR workshop. Bari, Italy (10-13 June).
- Oral Communication at International EXPO/SIR workshop. Title of presentation: 1) Crystal structure solution by powder diffraction data; 2) Phasing via Direct Methods. University of Bari, Italy (10-13 June).

2013

- Invited lecture at International Workshop on 'Powder and Electron Crystallography'. Patras, Grece (8-12 July).
- Oral Communication at Twenty-second Croatian-Slovenian Crystallographic Meeting (CSCM22). Title of presentation: The Hybrid BigBang-Big Crunch in the EXPO2013 program. Biograd, Croatia (12–16 June).

2012

- Organization of 'Synthesis and characterization of novel Nano-Sized inorganic materials' International school. University of Bari, Italy (17-22 June).
- Invited lecture at 'Structure, microstructure, nanostructure' AIC International School. Trento, Italy (15-20 September).

2011

- Invited lecture at 2011 ICDD (International Centre for Diffraction Data) spring Meetings. Title of presentation: 'From X-ray powder diffraction pattern to structure solution through new algorithms, strategies and tips: the EXPO program'. ICDD Headquarters, Philadelphia, USA (14-18 March).
- Chair at MS95 'Automated Data Processing and Structural Solution for Powder Crystallography'. XXII IUCr congress Madrid, Spain (22-30 August).

2010

- Invited lecture at MISCALL-2nd Meeting of the Italian and Spanish Crystallographic Associations. Title of presentation: 'EXPO2010: algorithms and tips for a successful powder structure solution'. Oviedo, Spain (30 June-3 July).
- Chair at MS6 'Structure Solution'. 26th European Powder Diffraction Conference (EPDIC12), Darmstadt, Germany (27-30 August).

2009

- Invited lecture at 25th European Crystallographic Meeting (ECM25). Title of presentation: 'New strategies in EXPO2009: applications to pharmaceutical compounds. Istanbul, Turkey (16-21 August).

2008

- Teaching at International summer school on structure determination from powder diffraction data on 'Structure solution by powder diffraction with the EXPO program'. Paul Sherrer Institut, Villigen, Switzerland (18-22 June).

2007

- Editor of the Newsletter N. 35 of the Commission on Powder Diffraction (CPD), International Union of Crystallography (IUCr). ISSN 1591-9552.

2006

- Teaching at 'dDffrazione da materiali policristallini' national school. Martina Franca, Italy (26-30 June).

2004

- Teaching activity for the research project entitled: "TECSIS: Diagnostic Technologies and intelligent systems for the development of archeological parks in the south of Italy". 10h. Bari, Italy (17 May- 17 June).

2001

- Oral Communication at 20th European Crystallographic Meeting (ECM20). Title of presentation: 'EXPO: new performances'. Warsaw, Poland (25-31 August).

2000

- Oral Communication at XXX National Congress of Associazione Italiana di Cristallografia (AIC). Title of presentation: 'EXPO2000: new performances for ab initio solution of powder structures'. Martina Franca, Italy (19-22 September).

- Organization of XXX National AIC Congress AIC. Martina Franca, Italy (19-22 September).

1998

- Teaching 'Diffratometria da materiali policristallini: recenti sviluppi delle tecniche di risoluzione e di raffinamento strutturale' national AIC school. Perugia, Italy (08-12 September).

1996

- Organization of V SIR workshop: SIRWARE96 Single Crystal and Powder Data X-rays, Neutrons and Electrons. Bari, Italy (17-20 December).

1994-2007

- Teaching assistance for the Crystallography Course (75h) within the III-years Diploma Joint Course in Chemistry and Material Science.

AWARDS**2003 'Alessandro Vaciago' Award**

Prize winner 'Alessandro Vaciago', of the Accademia Nazionale dei Lincei

PROJECTS LEADER**2012 - 2013 Fondazione cassa di Risparmio di Puglia (FCRP)**

Title of project: Studio cristalografico di radiotraccianti PET in valutazione clinica per la diagnosi precoce dell'Alzheimer.

**PROJECTS PARTICIPATION
(LAST 5 YEARS)****2019 - 2022 'IDF SHARID' – Program PON**

Title: Innovative devices for shaping the risk of diabetes

2108-2020 Bilateral agreement CNR/MOES (Albania)

Title: "New nanomaterials for applications in conservation and consolidation of stony materials part of Culture Heritage in Albania"

2012-2016 FIRB

Title: Integrated network for Nano Medicine (RINAME)

2015-2018 'Software and know how license' contract

between CNR 'Department of chemical sciences and materials technologies' and RIGAKU Corporation for the payment of royalty from RIGAKU to CNR for each non-exclusive license per each sale by RIGAKU, of the software EXPO2015

2005-present Commercial license agreement

between the Institute of Crystallography (IC)-CNR and the companies interested in the EXPO package

PERSONAL SKILLS
